“The Swamp” is to become the new name for the globalist sect, the open society adepts, LGBT maniacs, Soros’ army, the post-humanists, and so on. Draining the Swamp is not only categorically imperative for America. It is a global challenge for all of us. Today, every people is under the rule of its own Swamp. We, all together, should start the fight against the Russian Swamp, the French Swamp, the German Swamp, and so on. We need to purge our societies of the Swamp’s influence. Instead of fighting between ourselves, let us drain it together. Swamp-drainers of the whole world unite!

The other point is that anti-Americanism is over. Not because it was wrong, but exactly the opposite: because the American people themselves have started the revolution against precisely this aspect of the US that we all hated. Now the European ruling elite, as well as part of the Russian elite (that is still liberal), cannot be blamed as before for being too pro-American. They should now be blamed for being what they are: a corrupt, perverted, greedy gang of banksters and destroyers of cultures, traditions, and identities. So let us drain the European Swamp. Enough with Hollande, Merkel, and Brussels. Europe for Europeans. Soros and his sect should be publicly condemned.

Dugin is the most influential ethnic nationalist thinker in the world and the architect of Russian foreign policy. If you want to understand the philosophical underpinnings of disinformation that de-legitimizes

democracy, he is your guy. He acts and writes like a crank but has massive influence on Vladimir Putin. Here is his trajectory to influence in the US.
