1. Rosneft was mentioned firstly in Christopher Steele's Dossier on Page 30, describing Treason on Part of Trump and his campaign.

2. This is a link to Christopher Steeles Dossier.

Turn to Page 30 to find Rosneft Deal and 19,5 % for the Presidency.

3. After this I started digging, and I found the actual buyers, which matched the Dossier.

4. The Buyers was Glencore which is partly owned by the Koch Brothers Qatar who Donald J Trump owns stock in Intertrust-Owned by Blackstone.

5. Blackstone is owned by Stephen Schwarzmann, advisor and friend with Trump for 30+ years.

6. I continued to dig and found that a lien was turned in by Rosneft on CITGO, which their Venezuelan company is setting to default.

7. The lien says that Rosneft will seize control of it.

8. CITGO Donated 500.000 to Donald Trumps inauguration on 1/20/17 according to FEC records.

In the next doc.'s you see my work.
