

Everything you communicate electronically is stored and analyzed by Israel.

In addition, the Bolshevik Israelis/Russians are stealing American technology.

A tiny “Arc Processor” is sitting within the Intel CPU with its own custom version of the Linux operating beyond the software level – completely transparent to the end user.

It does not matter if you’re using Windows, Linux or Apple iOS...you are toast and THIS is how Israel does it.

It’s all part of the Talpiot Program.

No one is safe – no one.

AMD has the exact same system – Platform Security System – and that is now totally owned and run by China.

The ENTIRE world’s “Cloud Based” Internet system is back-doored by Israel.

THIS is a national security disaster.

Disaster is spelled D-I-S-A-S-T-E-R.

They have “kill switched” the world’s infrastructure.
